

## 1,6-Hexanediol

### Properties

1,6-Hexanediol is white, wax-like material giving a clear solution when melted. Due to the good water solubility 1,6-Hexanediol is easy to formulate.

### Specification

Analysis	Specification	Method
Assay	min. 99,7%	GC
Solidification point	min. 41,6°C	

### Physical / Chemical Data

Density 50°C	appr. 0,95	Safety data and information relating to environmental aspects can be found in the safety data sheet, which is available on request from the address below.
Boiling point	appr. 254°C	
Flash point	appr. 140°C	
Hazen color (APHA)	appr. 20

## 1,6-Hexanediol

### Storage and Handling

In the original sealed containers the product can be stored for at least two years. Protect from direct sunlight, moisture and heat.

### Shelf Life

At least 2 years in original sealed containers.

### Packaging

200 kg drums

### Labeling

Classification and labeling have been determined according to EU Directives 67/548/EEC and 1999/45/EC, including amendments and take into account the intended product use.

Risk phrases: This product is not classified according to EU legislation.

### Legal Situation

CAS No.:	629-11-8
EINECS No.:	211-074-0
TSCA:	listed
INCI:	Hexanediol

### Advantages

- Multifunctional ingredient
- Non irritating to the skin
- Good water solubility
- High purity
